

Series 4000

Overlap Detail

Nu-Ray's Series 4000 panel is an exposed fastener panel that offers an economical system for roof and wall applications.

Series 4000 works for a variety of building solutions from new construction, to renovations and agricultural buildings.

The panel features a full 36" net coverage for fast and easy installation. Wall applications can feature the panel vertically or horizontally.

Available in 28 gauge semi-modified polyester, 26 and 24 gauge BASF **ULTRA**-Cool Kynar, and 26 and 24 gauge Zinalume Plus.

For more information please visit our Web site or contact a Nu-Ray representative.
